

# Hamzey Beauferris

(587) 703-2905 – hbeaufer@ucalgary.ca – <https://beauferris.github.io/>

## EDUCATION

**BS in Computer Science with a minor in Economics, *University of Calgary***

2020

## CERTIFICATION

**Tableau Desktop Specialist**

2020

- Official Tableau certificate

## EXPERIENCE

**Junior Developer, Epic Group**

2020–Present

- Collaborated on interdisciplinary team to develop a custom web application (HTML, CSS, JavaScript) for Dynamics 365 users.
- Application unifies sales team workflows and allows them to manage and quote 100% of their jobs in Dynamics 365.
- Directly worked with sales team/estimators to collect requirements and better understand their business needs.
- Scraped product data from websites/pdfs for master product list using python.
- Designed/developed data workflows using Microsoft Azure tools and Python to automate 70% of product data ingestion into Dynamics 365.
- Developed and designed dashboards to summarize 10+ data intensive tables using tools such as Excel, Python, and PowerBI to forecast data and provide evidence for major business decisions.

**Technical Manager, Givergy Lt**

2018–2020

- Installed and managed Wi-Fi networks for large-scale charity auction events.
- Setup included connecting access points, switches, and routers to Cisco servers.
- Managed network load with 1000+ tablets connected.
- Demoed bidding process for clients to help them better understand our product.
- Edited front-end of auction websites for clients using HTML/CSS.
- Created reports and dashboards after each event using data from events to help clients raise more.
- Assessed client and guests changing needs, ensuring that they have a successful event.
